- BUS 685 Private Equity Investing (Baks)
- BUS 625 Real Estate Finance (Black)
- BUS 682 Real Estate Market Analysis (Black)
- BUS 688 Real Estate Development (Fogarty)
The first half of BUS 502 (The Economic Environment of Business) deals with macroeconomics (central bank policies, labor markets, fiscal policy, long-term growth, exchange rates). The second half covers topics in applied microeconomics (regulation, energy, environmental policy, product pricing). The course attempts to present a range of political perspectives on economic policy. The only prerequisite is BUS 501. No math beyond high school algebra.
BUS 622:
The course is designed as a workshop in which law students and business students will work together to structure and negotiate varying aspects of a private equity deal, from the initial term sheet stages, through execution of the purchase agreement, to completion of the financing and closing. Private equity deals that are economically justified sometimes fail in the transaction negotiation and documentation phase. This course will seek to provide students with the tools necessary to tackle and resolve difficult deal issues and complete successful deals. Students will be divided into teams of lawyers and business people to review, consider and negotiate actual transaction documents. Issues presented will include often-contested key economic and legal deal terms, as well as common ethical dilemmas.
